

# Supplemental Guidelines to California Adjustments

## What's Changed?

The California legislature enacted SB 615 (Stats. 2004.CH.388), which makes California law compatible with the Servicemembers Civil Relief Act (Public Law 108-189). This means that servicemembers domiciled outside of California and their spouses may exclude the member's military compensation from gross income when computing the tax rate on nonmilitary income.

Requirements for military servicemembers domiciled in California remain unchanged. Military servicemembers domiciled in California must include their military pay in total income. In addition, they must include their military pay in California source income when stationed in California. However, military pay is not California source income when a servicemember is permanently stationed outside of California.

## General Information

In general California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the Federal Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), and the Ticket to Work And Work Incentives Improvement Act of 1999 (Public Law 106-170).

## Purpose

Use these guidelines to make adjustments to federal adjusted gross income that are necessary because of

current year or prior year differences between California and federal law. Generally, you report these adjustments directly on Schedule CA (540), California Adjustments — Residents (or Schedule CA (540NR), California Adjustments — Nonresidents or Part-Year Residents).

If you are required to make multiple adjustments for any one line on Schedule CA (540 or 540NR), attach a schedule to your return summarizing these adjustments.

In some cases you need to complete other forms or schedules to figure the adjustment to carry to Schedule CA (540 or 540NR). See "Order Forms and Publications" on the back cover of your tax booklet for information about ordering forms.

ITEM	DIFFERENCES BETWEEN FEDERAL AND CALIFORNIA LAW	WHAT TO DO FOR CALIFORNIA
<b>Wages, Salaries, Tips, etc.</b>		
• Military pay	Special rules apply to active duty military pay. Native Americans with military pay also see "Earnings of American Indians" on page 2.	Get FTB Pub. 1032 for more information.
• Sick pay received under the Federal Insurance Contributions Act and Railroad Retirement Act	California excludes from income the sick pay received under these Acts.	Enter qualifying sick pay included in federal income on Schedule CA (540 or 540NR), line 7, column B.
• Income exempted by U.S. treaties	Income exempted by treaty under federal law may be excluded for California only if the treaty specifically excludes the income for state purposes.	Enter the amount excluded from federal income on Schedule CA (540 or 540NR), line 7, column C.
• Employee income exclusions for ridesharing programs	Current federal law provides an income exclusion for the value of parking provided to an employee up to \$175 per month and for transit passes provided to an employee up to \$65 per month.  California law provides an income exclusion (for years beginning on or after 1/1/88) for compensation or the fair market value of other benefits (except for salary or wages) received for participation in a California ridesharing arrangement (subsidized parking, commuting in a third-party vanpool, a private commuter bus, a subscription taxipool, and monthly transit passes provided for employees and their dependents). The exclusion is not available for passes for dependents who are elementary or secondary school students.	Enter the amount of ridesharing benefits received and included in federal income on Schedule CA (540 or 540NR), line 7, column B.
• California Qualified Stock Options (CQSOs)	California law provides an income exclusion for California qualified stock options (issued on or after 1/1/97 and before 1/1/2002) that are exercised by an individual who has earned income for the taxable year from the corporation granting the CQSO of \$40,000 or less; and has exercised options for no more than 1,000 shares with a combined fair market value of less than \$100,000 (determined at the time the options are granted).	Enter on Schedule CA (540 or 540NR), line 7, column B the amount included in federal income that qualifies for the California exclusion.
• Employer-provided meals	Federal law allows employees to exclude from fringe benefits the value of meals provided by their employer at the job site for the employer's convenience if more than 50% of the employees are provided the meals for the convenience of the employer. California law has not conformed to this provision which allows the exclusion solely because the meals were provided to more than 50% of the employees.	Check with your employer to see if this applies to you. If it does, enter the amount of benefits excluded from federal income on Schedule CA (540 and 540NR), line 7, column C.
• Education assistance	Generally, California and federal laws are the same regarding the gross income exclusion for education-assistance. However, California law allows amounts paid or incurred by an employer for an employee to take graduate level courses beginning on or after 1/1/00 in pursuit of a law, business, medical, or other advanced academic or professional degree to be excluded from California gross income. Federal law does not allow these expenses to be excluded from federal gross income.	Enter on Schedule CA (540 or 540NR), line 7, column B the amount included in federal income that qualifies for the California exclusion.
